FROM: Beth Brown, RPM *EBR*
North Superfund Remedial Branch

TO: See Addressees

Please disregard the June 26, 1991 memo regarding the July 5, 1991 review due date. After discussing the RI review with several of you, I realized that some of you were not sent both volumes or any volumes. In this transmittal are the appropriate volumes for your review. I apologize for this inconvenience.

Also enclosed is the July 9, 1991 Progress Report with additional data, Appendices H, J, and N, to be included in the RI Report. These appendices need to be inserted behind data currently in the corresponding appendix.

The RI should now be complete, pending *July EBR* your comments. The due date for your comments is June 25, 1991. Carrier and EnSafe representatives would like to come to the Atlanta office on July 29, 1991 to discuss the RI comments, the Risk Assessment (RA) and the Feasibility Study (FS). These meetings have been very useful in streamlining the number of report revision. Please try to make yourselves available for this meeting and contact me by July 18, 1991 to confirm your attendance. Your comments are needed by June 25, 1991 in order to develop the meeting agenda.
